**We have a decent-sized deck but we seldom use it because of the afternoon sun which can be unbearable. And when it's not uncomfortably warm, it's usually raining. We are considering having an awning installed but concerned about the set-up and tear down each year. We are past the age of doing such things on our own. Suggestions?**

Your situation is certainly not unique. In fact, many of our clients here at Kreider's Canvas Service enjoy the benefits of our awnings and canopies— without any labor at all! How's that, you ask?...by having us handle the spring installation and fall take-down. And, if needed, we also provide worry-free winter storage. Here's how it works.

try to have the rehangs completed between April 15th and Memorial Day.

**Fall Takedown**

As summer wraps up and kids go back to school and the leaves start to showcase their beauty our guys gear up for the fall takedown season. To give your awning the longest lifespan possible it should be taken down prior to any snow and ice accumulation. Typically, when the days grow shorter and cooler you will be excited to have the extra light and warmth flooding in through your windows.

An awning or canopy that is removed by Kreider's will be carefully inspected for holes, tears or other issues that may need attention. Should you choose to have your awning stored by us, it will be tagged and warehoused within our clean, dry and rodent-free storage facility.

As with our rehangs, clients are encouraged to call as soon as possible to schedule their fall takedown. And, yes, like the rehang, we suggest that they get added to our Auto list. We generally try to have the bulk of take-downs completed with-in the month of October.

Make the most out of your outdoor living areas by expanding and extending their usage—awnings and canopies can do just that! And, if you'd rather not deal with the set-ups and tear downs, we're ready to help with those chores as well. For more information, please give us a call or visit us online.

**Spring Rehang**

Spring is a time to clean away the winter mess and get ready for outdoor living. When our trucks begin to move through the local neighborhood folks begin to get excited because they know warm weather is on the way. A deck or patio covered by a Kreider awning or canopy is a happy one! We take pride in providing you with top-notch service and you'll find us to be friendly, helpful, and on-time.

Awnings and canopies that we service are guaranteed to have a drum tight fit with as few wrinkles as possible. Awnings that are installed properly will last longer because they will not "pool" water flap so much in the wind. Care will be given to avoid stepping on flowers, railings or outdoor furniture. Our teams strive to leave your home looking better than when they came!

Clients are encouraged to call as soon as possible to schedule their spring rehang. For the most efficient and worry-free service experience, ask to be added to the Auto list. We generally
